 **Ekofisk Junior**

 Our vision:
A solid foundation for life!

 The children are well settled, and are making good friends

Ekofisk Junior

...who we are?

The kindergarten/ barnehage is divided into three different groups, Alpha, Bravo and Charlie.

The children are aged between 0 – 6 years old. It is a kindergarten/barnehage for children of the employees at ConocoPhillips. The Reggio Emilia Philosophy inspires us. We show the children respect well as exploring together with them. We make sure that all children get to use their full potential and ability.

Location:

- The kindergarten/ barnehage is located close to the parent's workplace/ main office.
- The opening hours are from 07.30 – 16.30
- Price, we charge the statly set maximum price. The board will set a price for the monthly food costs

We can offer:

- Sibling discount 30/50%
- High staff ratio
- Kitchen staff
- Qualified staff and kindergarten/ barnehage teachers
- Excellent teamwork
- We work closely with the parents
- We provide all meals

We can also offer:

- Healthy and varied meals
- We are able to use the local gymnastic hall
- The kindergarten/ barnehage is located nearby nice walking areas such as woodlands and the sea
- We arrange various types of daytime arrangements that the parents and sibling can join
- Pre- school training
- We practice a gentle preparation and transferee from kindergarten / barnehage to school
- Early learning project weeks
- English training (learning English with Teddy)

Learning Focus

Communication, language and text

One of our most important tasks is to make the children and the parents feel safe, secure and happy to come to the kindergarten/ barnehage. The children will be offered full worthy learning according to the Norwegian Rammeplan.

We will provide learning through play and various learning activities.

We focus on various themes and projects

- We acknowledge the childrens interests and ideas and we offer opportunities according to this
- Previously we have had projects about Karius and Baktus, The Hungry Caterpillar, by Torbjørn Egner's book etc.

We adjust to the various learning areas and we provide a range of material, resources and opportunities is which the children can engage according to their age.

Learning through play and daily activities promote motivation, inspiration, belonging and progress.

We promote change

- We evaluate our work and obtain new knowledge

We love to spend time outdoors and often go on trips in the nearby area.

- The children explore and enjoy the nature throughout the different seasons.

Everyday Focus

- The children playing and learning together with friends
- We pick upon unwanted behavior. Bullying is not accepted
- Social learning skills
- The staff are good role models at all times
- Healthy eating
- Health, environment and safety
- Art, craft and creativity
- Good parents relations
- Language, texts and communication
